M.D. M.B. Ch.B. F.R.C.S. F.R.C.S. [ORTH] Ed. GMC: 2641463
Consultant Orthopaedic Surgeon.

Consultant Orthopaedic Surgeon: The Bristol Orthopaedic Clinic

EDITORIAL BOARD	The American Journal of Sports Medicine and Knee Surgery	2007 -
EDITORIAL PANEL:	The American Journal of Sports Medicine: Principle reviewer	2002 -
	Current Orthopaedics and Related Research	2004 -
	Orthopaedic Journal of Sports Medicine	2018 -
	New England Journal Of Medicine.	1991
	British Journal of Sports Medicine.	1996

PROFESSIONAL APPOINTMENTS AND REPRESENTATIVE POSITIONS:

The American Journal of Sports Medicine: Ethical Committee	2021 -
NHS Litigation Authority medical negligence expert	2014
General Medical Council Fitness to Practice, expert advisor	2009
UK-NHS Health Care Commission, Orthopaedic Advisor	2007 - 09
Hospital Consultants and Specialists Association HCSA:	
National Council Representative	1998 - 08
Private Practice committee	2001 - 08
British Medical Association	
BMA Private Practice Committee elected representative,	2001 - 3
Action Research. Research Project Funding Assessor	1999 - 2010
Director Sports-Medicine SW Charity	1995-
BUPA Hospital Bristol, MAC Representative	1994 - 7
Medical injury / catastrophic injury / medical negligence reporting	1985

MD THESIS: Infection and Failed Wound Healing Following Knee Arthroplasty.
University of Manchester M.D. 1990

TEXT BOOKS: Controversies in Orthopaedics: Knee Surgery
Eds: D P Johnson. R J Williams MD. Hospital for Special Surgery NY.
Oxford University Press. Sept 2004

PATENTS: A New Inset Patella Prosthesis for Total Knee Replacement.
Anterior Cruciate Ligament Fixation and Tensioning Device.

THESIS SUPERVISED Mr. O. Basso. Patellar Tendonitis. Imperial College
Department of Bioengineering Imperial College London 2001

PREVIOUS APPOINTMENTS

Consultant Orthopaedic Surgeon Trauma and Orthopaedics: (locum)	
Fairfield Hospital, North Manchester General Hospital	2020
Central Manchester NHSFT, Pennine Acute NHST	
Consultant Orthopaedic Surgeon the Nuffield Hospital Bristol	
Consultant Orthopaedic Surgeon the Glen Hospital Bristol

ACCREDITATION:	Speciality Examination in Orthopaedic Surgery. FRCS. (ORTH). Ed.	1989
	Certificate of Higher Surgical Training. Royal College of Surgeons of England.	1990
	GMC license to practice No 2641463	Current
	GMC Revalidation	April 2015
	Appraisal	April 2015

MEMBERSHIP:

American Orthopaedic Society of Sports Medicine. Honorary member.
European Society of Knee Surgery Sports Traumatology and Arthroscopy. (Faculty member 1998).
International Cartilage Repair Society
The A.C.L. Study Group.
European Society of Arthroscopy, Knee Orthopaedic Society.

British Association for Surgery of the Knee.
British Orthopaedic Research Society.
British Association of Sports Medicine.
British Orthopaedic Sports Traumatology Association.
British Orthopaedic Association.
The Magellan Society.
The Patello - Femoral study group. Applied for:
UK Meniscal Study Group.

SCHOLARSHIPS and RESEARCH GRANTS (as principle investigator):

Glaxo Medical Research Scholarship. (£ 25,000) 1986-87
Pharmacokinetics of antibiotic prophylaxis in knee surgery
Ethicon Foundation Travelling Research Scholarship. (£25,000) 1987
Choice of incisions and wound healing following knee surgery
Biomet Research Scholarship. (£87,000) 1986-87
CPM and mobilisation following knee surgery
Medical Research Council New Investigator Grant (£30,000) 1988
General funding of lecturer's research
Nuffield Foundation Research Grant. (£25,000) 1988-89
Infection following knee surgery
Dickenson Trust Scholarship. (£12,000), (25,000) 1987, 1989
New techniques in knee surgery
Smith and Nephew Foundation Scholarship. (£50,000) 1989-90
Infection and failed wound healing following knee surgery
BWAHA District Research Grant. (£10,000) 1988.
An MRI investigation into the Os Trigonum
Radiometer Research Grant. (£45,000) 1987
Oxygenation of the wound edges following knee surgery
Smith and Nephew Scientific Research Grant (£60,000) 2004
Arthroscopic
Mitek Scientific travelling scholarship (£3,500) 2005
Investigation of reabsorption of polylactic acid fixation devices

OTHER FUNDING (as principle investigator):

European Society for Sports Injuries and Knee Surgery
Travelling scholarship (various) 2003
Visiting Consultant to Fiji
Smith and Nephew; Australia (various) 2000
Visiting professor to Riyadh Military Hospital Department of Orthopaedics, Riyadh, Saudi Arabia, April Smith and Nephew (£7,500) 2007
Visiting professor to Sosnowiec Hospital, Krakow, Poland. Professor Gazdzik. Smith and Nephew (£5,000) 2005
American –European exchange of Knee Surgery Fellows: AOSSM - ESSKA travelling fellowship Aircast Foundation (£10,000) 1994
Funding for the thesis of Mr. O Basso at Imperial College department of Bio-engineering. Bristol Orthopaedic Clinic (£35,000) 2004
Funding for the Advanced techniques in Knee replacement course with Dr John Insall as the invited speaker (12,500) 1989.

D. P. JOHNSON.

M.D. M.B. Ch.B. F.R.C.S. F.R.C.S. [ORTH] Ed.
Consultant Orthopaedic Surgeon.

Clinical Experience

In 2020 I worked for the Central Manchester Teaching Foundation Trust and the Pennine Acute NHS Trust in Trauma and orthopaedics with a special interests in lower limb and knee surgery. This included a full trauma on-call commitment. This included managing acute trauma including consultant on-call duties, managing Covid-19 positive patients, elective orthopaedics and the teaching of orthopaedic trainees. I played a full part in the disruption, re-organisation and flexible working consequent to the Covid-19 pandemic. I have core and mandatory NHS training together with additional time management, clinical governance, effective communication, team working and life support training. I have recent experience of NHS systems and protocols. Prior to that I have continuously worked at the Bristol Orthopaedic Clinic since 1992 and also in various positions as an NHS consultant.

I am a registered and fully trained consultant in Orthopaedic Surgery and Trauma. I have completed Fellowship training in Knee Surgery, Joint arthroplasty and Sports Injuries. I have a higher degree awarded for my work in complex knee surgery and knee arthroplasty. This includes soft tissue knee surgery, joint reconstruction and knee joint replacement surgery and complex and revision knee surgery of all types the treatment of anterior knee pain and patella-femoral problems. I have extensive experience in trauma and worked in several level 1 major trauma centres.

I have extensive experience in academic practice, research, editing journals and have academic experience up to professorial level. I have academic skills including ongoing current research submissions and publications, experience of supervision of research up to MD level, and ongoing experience as principle reviewer and editorial board member of the second highest ranked orthopaedic journal in the world. I am also the senior and longest serving UK member of the international ACL Study Group.

Audit, Governance, Regulatory Positions, Management and Commercial Experience

I have been involved in clinical audits over many years. This ranges from an audit of my own clinical practice which now spans over more than 20 years. There have been various publications of the clinical outcomes of these audits. I have been involved in comparative audits of clinical practices, units and departments as a practitioner, as the MAC representative, unit director, NHS-HCC Orthopaedic Advisor. I have been appointed as an orthopaedic expert by the GMC in respect of fitness to practice hearings. I have been appointed as a second stage reviewer for the UK NHS Health Care Commission complaints orthopaedic expert.

I have extensive experience of healthcare management both within the NHS, ISTC and private medical institutions. I was the lead in establishing the Clinical Governance structure of the Southampton NHSTC. I have served as a trustee for a medical research charity and am a reviewer for several medical funding bodies including Action Medical.

Journal Experience

In addition to my role on the Editorial Board of the Am J Sports Medicine and a principle reviewer; the second highest rated orthopaedic journal in the world. I am also a reviewer for two other international journals: the Orthopaedic Joiurnal of Sports medicine and Current Orthopaedics and related Research. In the past I have revieded for various international joirnals including JAMA.. I am also an assessor for the major British Medcial research funding charity Action Medical Research.

Scientific Reserch and Training

My first major international publication in the Journal of Bone and Joint Surgery in 1984 as a Senior House Officer. Many further significnat and practice changing papers followed. This culminated in my MD thesis being published as a supplyment to the Acta Orthop Scan Journal in 1992. This was the first non Scandinavian thesis to be published in this way by the journal. I worked for five years as the lecturer in Orthopaedic Surgery at the University of Bristol. I was honoured by being awarded the chance to be the first UK trainee on the exchange travelling fellowship between the European Society for Sports Surgery, Knee Surgery and Arthroscopy and the American Orthopaedic Society for Sports Medicine. I was awarded an honory membership of the AOSSM following this visit. I have also undertaken two trips as a visiting professor in knee surgery to Poland and Saudi Arabia. I was also the editor of a Text book "Controversies in Soft Tissue Knee Surgery". I have supervised and sponsored one of my research fellows to obtain an MD theisis on the mechanics of Patellar Tendonitis from Imperial College London.

Web based e-medicine

In 1992 I perceived the importance of e-medicine in disseminating information to patients and improving the provision of care. I established the patient information web site www.Orthopaedics.co.uk which to date continues as perhaps the largest UK independent health information web site. I have also on a commercial basis conceived of designed, implemented and supervised for many years a site on behalf of the largest UK healthcare company Smith and Nephew.
